FRIDAY, FEBRUARY 6, 1903.

## Council Proceedings.

Council met in regular session Monday evening, February 2, 1903.—Present: Mayor Coon, Aldermen Blowers, H. F. Davidson, P. S. Davidson, Prather, Gessling and Mayes; Recorder Nickelsen and Marshal Cuning.

Minutes of previous meetings were read and approved. Petition presented asking that sidewalks be laid on the east side of Third street between Oak and River streets, and on the south side of River street from Second street in Hood River proper to Third street in the first addition west. The council decided that Park avenue was the street meant. On motion the petition was referred to the committee on streets and public property.

Petition was presented asking that J. L. Henderson be authorized to establish grades on the streets in Riverview Park addition; referred to committee on streets and public property.

The finance committee reported back the bill of Ex-Marshall Dukes, with the recommendation that the bill be allowed, less certain pound fees collected. Also, the bill of J. E. Rand with the recommendation that it be allowed. Report of committee was accepted and bills allowed.

H. F. Davidson of the committee on fire and water, reported a substitute for ordinance No. 68, granting the Mount Defiance Water, Power & Light Co. the right to lay water mains and erect poles and wires in the streets, recommending that it be referred to the judiciary committee for an opinion as to its legality. After considerable discussion the council decided to take up the ordinance and report of committee was accepted except as to reference. The ordinance was read and on motion of P. S. Davidson it was amended to give the company 30 days instead of 10 days in which to accept such ordinance. On motion of Blowers the ordinance then passed second reading and was put upon its final passage, being passed by a unanimous vote.

On motion of H. F. Davidson the ordinance was referred to the committee on judiciary, with instructions to get legal advice thereon and report at a special meeting of the council on Friday night.

Prather, chairman of the committee on health, reported one case of smallpox in the city; that it was thought best not to remove the patient to the pest house at this time, and that the case was being closely quarantined by the marshal, and all precautions taken to prevent the spread of the disease.

The following bills were presented and allowed: The Glenwood, 10 meals for election board..... \$ 2 50 Lost Lake Lumber Co., lumber for cross-walks..... 24 58

Gessling made a motion that the mayor appoint two members of the council to act with himself as a committee to investigate and report in regard to amending the rules and order of business; motion lost. On motion of P. S. Davidson, Alderman Blowers was elected president of the council for the ensuing year.

On motion of P. S. Davidson the chairman of the committees on streets and public property, fire and water and health were appointed a special committee to investigate and report on the sewer question.

The committee on streets reported back the petition asking for sidewalks with the recommendation that the same be referred back to the signers for a more definite description of the location where such walk is desired. Report of committee was accepted.

On motion of P. S. Davidson the committee on streets and public property were instructed to formulate plans for a city building and report same for bids. Adjourned to meet Friday, February 6, at 7:30 p. m.

## Judge Henry Goes Fishing.

Santa Monica, Cal., Jan. 27, 1903.—Editor Glacier: This is a rainy day, the first rain we have had since we have been here. Rain is something needed here very much. We have had sunshine nearly all the time. Three frogs since we came. The weather has been about like June at home; the mornings and evenings cool and the rest of the day warm.

The bathers are in the ocean every day, men, women and children. It is great sport for those that can endure it; but there are some who can't stand it. The city extends along the beach for two miles and is laid out to Twenty-fourth street. The north half is as level as a floor, with a slight elevation to the north. The south part is somewhat broken. There are some fine business houses and a good many fine residences. Many fine homes are now vacant; they are owned by people who live in Los Angeles, who come here for the summer. The different churches are well represented. Secret societies are numerous, but there is not a Grand Army post in the city. The nearest post is at Seaside, four miles east, where the soldiers' home is located. There are about 1,800 of the old men in the home, and about 300 out on furlough. The deaths at the home average about two a day. I meet old comrades here from all parts of the United States.

If Neighbor Byrket was here and could see some of the big fish caught he would consider the catches made in Hood River rather small fry. The largest one I have seen on the market weighed 480 pounds. I haven't caught any that weighed over 10 or 12 pounds. The big fish are caught about two miles from shore.

We are all well and feeling fine since we got over the colds contracted on our trip down here. I haven't had any rheumatism so far and feel as if I would escape this winter. L. HENRY.

## Protracted Meeting.

The Valley Christian church will begin a series of meetings on Sunday evening, February 8, and will continue about two weeks. A praise and prayer service will be held each evening, beginning at 7:15 and the preaching will begin promptly at 7:45. The singing will be in charge of the chorister, J. W. Emmel, Mrs. May Morgan presiding at the organ.

The preaching will be done by the pastor, and during the first week he will complete a series of sermons on the Causes of Our Salvation, Divine and Human. The Originating Cause, The Procuring Cause, The Regenerating Cause, The Qualifying Cause, The Receiving Cause and The Retaining Cause. The aim of each service will be the edification of the church and the salvation of those out of Christ.

All are cordially invited to attend these meetings and join with us in the study of the Scriptures and the worship of the Lord. J. W. JENKINS, Pastor.

## An Exciting Runaway.

A lively runaway on Oak street yesterday, helped to break the monotony of a cold winter's morning and cause a thrill of excitement to those who witnessed the spirited team as they sprinted down the street. The delivery team of Hartley's grocery store, attached to a sleigh, while standing in front of his place of business, became frightened at a loose horse and started down the street at a lively gait, increasing their speed as they went. As they neared Hanna's grocery they left the street and took to the sidewalk, holding right of way until Hanna's store was reached. Seeing the piles of good things to eat in the windows and finding the front door open, they struck for the inside, the near horse getting through while the other remained on the outside. The sleigh tongue just missed the door and passed on the outside, smashing several large glass in the show window. One of the horses was thrown down by the shock when they struck the store front, and received some injury to its hind legs. The sleigh tongue was broken, but otherwise the sleigh received no injury. The damage to Mr. Hanna's building and stock will amount to \$25 or \$30.

## Mt. Hood Notes.

Plenty of snow and good sleighing; snow about 25 inches deep. Messrs. Kellogg and Ayers made a business trip to Hood River last week. Henson & Leasure had a horse crippled last Wednesday. The horse caught its foot under a log and tore off his hoof. This stopped their logging operations for the time; but they think they can save the horse.

We understand there is to be another contest on a homestead, which will make the boys stick a little closer to their claims. It is much easier for a man to live up to the law than to fight a contest. Robert Leasure has gone back to work at Davidson's logging camp; also, Roy Henson will try the camp again.

As a result of the high water recently, the county will have two new bridges to build across the East Fork and one to repair. But the county is getting used to that kind of work, it being the regular thing after high water. Crapper Croppings. This looks more like winter than ever. The snow measured 24 inches in depth at Mr. Hengst's place last Friday and some snow has fallen since then, making it the heaviest snow-fall of the season. The coldest night of the winter so far was Sunday and Monday night, the thermometer registering 7 degrees above zero. Nearly everybody is busy doing nothing at present.

The smiling countenance of Tommy Bishop is seen on our streets once more, after being away nearly all winter on his homestead up in Northern Washington. Any one wanting a grubbing machine, drum turned out of hard oak, will do well to call on L. H. Nichols who can do a first-class job on short order. Mr. and Mrs. H. E. Blocher gave a dance and supper last Friday night. There were about 20 couples present. Mr. and Mrs. Blocher know how to entertain the young as well as the older ones. The coffee and those cakes couldn't be beat, no matter where you would go. Every one present expressed themselves as having spent the most enjoyable evening of the season. It was a merry party indeed that started home about 3 o'clock in the morning, singing as they went. Mr. and Mrs. Blocher expect to give another dance and supper in the near future and invite all to come and have a good time, the old as well as the young. J. L. C.

## A Card.

I desire to say that, though my wife and I cannot agree to live together, nor agree in business relations, I never suspected she had done anything criminal. I believe her morally pure in character. M. B. PORTER.

If your security is good your money is ready. Prather Investment Co. Dayton has the honor of being the first town in Oregon to inaugurate the rural telephone system. The system has become so popular that it is spreading like wild fire all over the state, to the dismay of old companies, who, like the telegraph companies, have collected money from the people, by iron bound rules of conduct—granting no accommodations except when dearly paid for. Salem will soon be connected from all sections by rural telephones, when business men and citizens generally will reap the benefit of the system.—Dayton Herald.

Missionary Commissioner to Japan. The appointment was announced yesterday of Rev. T. L. Elliot, pastor of the First Unitarian church, as special commissioner to Japan in missionary work for the Unitarian society. Dr. Elliot has long been one of the best known ministers in the city of Portland and his appointment to this position will no doubt be a source of gratification to many of his friends who realize his true worth. The Unitarian Society, which has its headquarters in Boston, will send Dr. Elliot to Tokio, where he will remain about two months, carefully investigating the whole matter of Japanese missions. Dr. Elliot will leave on or about March 1, and will not be accompanied by his family.—Oregonian.
